**Subject:** Terminate Operational Flow Order - Imbalance

The Operational Flow Order - Imbalance (OFO) in Zones 4, 5 and 6 will be terminated effective with the start of gas day **Tuesday, January 24, 2023 at 9:00 AM CT.**

Transco has limited flexibility to manage imbalances and strongly encourages all shippers to manage their system requirements to ensure a concurrent balance of receipts and deliveries daily. Transco may be required to take further action including issuing an Operational Flow Order (OFO) to ensure system integrity.

Additional information on Operational Flow Orders and Operational Controls can be found at this link. [http://www.1line.williams.com/Transco/files/training/Critical\\_Day.pdf](http://www.1line.williams.com/Transco/files/training/Critical_Day.pdf)
