Subject: TIGT SYSTEM WIDE LOAD ADVISORY ACTION, STORAGE RESTRICTIONS, AND UAOR

Importance: High

Effective for the Evening Cycle, Gas Day January 27, 2023, and until further notice, TIGT is issuing the following scheduling restrictions. (See below).

Effective for the Evening Cycle, Gas Day January 27, 2023 and until further notice, NorthWestern Energy is asking for all shippers to match their expected loads.

Thank you.
Energy Supply Department

This Advisory Action is effective for the Evening Cycle, Gas Day Friday, January 27, 2023, and until further notice. Tallgrass Interstate Gas Transmission, LLC ("TIGT") is issuing this Advisory Action per Section 33.4 of the General Terms and Conditions of TIGT's currently effective tariff.

TIGT is anticipating increased loads due to significantly colder temperatures system wide. TIGT requests that shippers match their supply nominations to the anticipated increase in on-system loads with consideration of the below constraints. Otherwise, TIGT may issue a Directional Notice to maintain the operational integrity of its pipeline.

Effective for the Evening Cycle, Gas Day Friday, January 27, 2023, and until further notice, TIGT is issuing the following scheduling restrictions:

Transportation Imbalances

Payback off the system for transportation imbalances will not be allowed.

Storage Restrictions

Allocated withdrawals for Interruptible Storage Service ("ISS"), as well as overrun ("AOR") of FSS, NNS, SCS, and CMC-2 services will be billed as Unauthorized Overrun (UAOR) pursuant to each Rate Schedule of TIGT's tariff.

Additional Gas Supply

Additional gas supply on the system will help alleviate this situation. Recommended supply points, subject to point capacity availability, include the following:

SSC/TIGT THOMAS (Location 7448)
TIGT/REX PHELPS (Location 60445)
TB/TIGT ADAMS (Location 7857)
TB/TIGT CLAY (Location 8382)
CHEYENNE PLAINS/TIGT SCOTT (Location 41544)

Underperformance

TIGT may issue underperformance notices for point operators not delivering the scheduled quantities they had confirmed. TIGT may reduce scheduled quantities per the tariff to match actual flows if the delivering operator does not remedy the underperformance in accordance with the notice.

Please monitor your weather forecast to assist you in matching your supply nominations to the anticipated increase in on-system loads.

Please continue to monitor the TIGT EBB for further updates.

If you have any questions, please contact your Account Director or Scheduling Representative at (303)-763-2906.
