Reqrd Rsp Desc:	No response required		
TSP:	00-699-6607	TSP Name:	Public Service Company of North Carolina, Incorporated

Notice Text:

Due to forecasted colder than normal weather conditions moving into the region on Sunday and projected system demand requirements, pursuant to the terms and conditions of Public Service Company Incorporated, d/b/a Enbridge Gas North Carolina's Transportation Pooling Agreement, Enbridge Gas North Carolina ("EGNC") is implementing an **Operational Order for Under-Deliveries (short positions) effective Sunday, December 14, 2025, at 10:00 AM ET until further notice.**

If a Pooler fails to comply with the Operational Order, Pooler will be assessed a penalty for each Dekatherm that Pooler's Under-Delivery is greater than seven percent (7%) of Pooler's scheduled volume. The penalty shall equal the higher of (i) \$50 per Dekatherm or (ii) three times the "Transco, zone 5 del." Midpoint price published in Platts Gas Daily, "Daily price survey" for the flow date on which the Under-Delivery occurred. For days of consumption when Gas Daily is not published, the daily price published by Gas Daily on the nearest subsequent day shall be used.

EGNC strongly encourages all Poolers to manage their requirements to ensure a concurrent balance of receipts and deliveries each day across the weekend and during the Operational Order.

Please contact Enbridge Gas North Carolina Transportation Administrator at [NCTransAdmin@DominionEnergy.com](mailto:NCTransAdmin@DominionEnergy.com) if you have any questions.
