Subject: WPS Natural Gas High Flow Constraint - Start Event

Dear Customer,

This is your official notification that Wisconsin Public Service has declared a Natural Gas High Flow Constraint for the period beginning at 9:00 AM CT on Friday, 12/12/2025 and will end upon notification.

All gas transportation customers on WPS's system are restricted to their approved nominations recognized by their pipeline company being delivered to WPS's city gate stations during the high flow constraint period. If you have any questions about your approved nominations contact your supplier or marketer.

Transportation customers that have contracted for backup service from WPS will automatically be protected from penalties up to the available daily capacity of their contracted backup. Any use of natural gas which exceeds the total of your approved pipeline nomination plus and contracted WPS backup supply will be assessed unauthorized use surcharges.

If you have questions, please call your WPS Account Executive, WEC Energy Group Gas Transportation Services at 800-264-8026.

Due to ANR declaring a Notice of Phase 2 Cold Weather Operational Conditions and OFO Watch (Fuel Segment ML2, ML3, and ML7) This is your official notification that Wisconsin Public Service LLC has declared a Natural Gas High Flow Constraint for the period beginning at 9:00 AM CT on Friday, 12/12/2025 and will end upon notification. All gas

transportation customers on Wisconsin Public Service LLC's system are restricted to their approved nominations recognized by their pipeline company being delivered to Wisconsin Public Service LLC's system during the high flow constraint period. Any use of natural gas which exceeds the total of your approved pipeline nomination will be assessed with unauthorized use surcharges. If you have questions, please call your Wisconsin Public Service LLC Account Executive, We Energies Business Care Center at 800-714-7777.

Sincerely,
Natural Gas Program Administrator
