Subject: Wisconsin Electric Gas Operations - Natural Gas High Flow Constraint - Start Event

Dear Customer,

This is your official notification that Wisconsin Electric Gas Operations has declared a Natural Gas High Flow Constraint for the period beginning at 9:00 AM CT on Friday, 12/12/2025 and will end upon notification.

All gas transportation customers on Wisconsin Electric Gas Operations' system are restricted to their approved nominations recognized by their pipeline company being delivered to WEGO's city gate stations during the high flow constraint period.

Any use of natural gas which exceeds the total of your approved pipeline nomination will be assessed with unauthorized use surcharges.

If you have questions, please call your Wisconsin Electric Gas Operations Account Executive, WEC Energy Group Gas Transportation Services at 800-264-8026.

Due to ANR declaring a Notice of Phase 2 Cold Weather Operational Conditions and OFO Watch (Fuel Segment ML2, ML3, and ML7) This is your official notification that We Energies LLC has declared a Natural Gas High Flow Constraint for the period beginning at 9:00 AM CT on Friday, 12/12/2025 and will end upon notification. All gas transportation customers on We Energies LLC's system are restricted to their approved nominations recognized by their pipeline company being

delivered to We Energies LLC's system during the high flow constraint period. Any use of natural gas which exceeds the total of your approved pipeline nomination will be assessed with unauthorized use surcharges. If you have questions, please call your We Energies LLC Account Executive, We Energies Business Care Center at 800-714-7777.

Sincerely,

Wisconsin Electric Gas Operations
