

# **CRITICAL WEATHER EVENT** **ORDER**

Due to the forecasted extreme weather the Pooler is duly notified that Atmos Pipeline – Texas is issuing a **Critical Weather Event Order effective at 9:00 a.m. on Friday, January 23, 2026, and continuing until further notice.** This order shall remain in force and effect until it is cancelled by Atmos Pipeline – Texas.

Poolers are directed to take all necessary actions and make all necessary adjustments to maintain a daily balance in their pool. **Over deliveries into the pool are not subject to penalties.**

Atmos Pipeline – Texas will enforce all applicable penalties on deficient balances each day the order is in effect according to the General Terms and Conditions; 3. Imbalances; paragraph (f) of your Gas Pooling and Balancing Agreement. For reference the agreement language states:

- *Pooler will pay the Critical Weather Event Imbalance Fee for each day its quantities are deficient during the Critical Weather Event following the effective time set forth in a Critical Weather Event Order. Deficient quantities during a Critical Weather Event will be determined by subtracting: 1) the total quantity of gas delivered from Pooler's pool station for such day from 2) the confirmed nominated quantity of gas at Pooler's Receipt Points for such day. The fee will be equal to **200%** of the highest daily price published during the Critical Weather Event for the Katy point listed in Platts Gas Daily in the table entitled "Daily Price Survey." In the event the daily price for the Katy point listed in the table entitled "Daily Price Survey" is no longer published, ATMOS will base the Critical Weather Event Imbalance Fee on a daily price index recognized as authoritative by the natural gas industry for the Katy point.*

**The Critical Weather Event Imbalance Fee will be charged in addition to any monthly imbalance fees applicable during the month.**

This notice is being issued pursuant to paragraph (p) of the Definitions included in the Gas Pooling and Balancing Agreement between Atmos Pipeline – Texas and Pooler.

Please contact your Contract Administrator or a Marketing Representative if you have any questions regarding this notice.
