

Notice of Atmos Energy Operational Flow Order

January 22, 2026

Dear Valued Customer,

Please be aware that Atmos Energy has issued an Operational Flow Order ("OFO") for its Virginia service territory, applicable to Symmetry's delivery of natural gas to you under our agreement, effective January 24, 2026, and continuing until further notice.

Information regarding the referenced OFO may be found on our website at <https://symmetryenergy.com/notices/>, which will be updated periodically.

Please note, while an OFO is in effect, both you and Symmetry are required to comply with the applicable provisions of the OFO. Failure to comply may result in the Transporter assessing imbalance penalties, fines, and/or other charges for which you may be responsible. Additionally, our agreement provides that Symmetry may charge you for incremental gas during an OFO period at market prices. Also be aware that while the OFO is in effect, Symmetry will have no contractual duty or ability to credit or repurchase any portion of your natural gas contract quantities.

Penalties assessed by a Transporter can be substantial and we encourage you to monitor and manage your daily gas usage for the duration of the OFO.

It is critically important during the OFO that you inform us immediately of any plans to make significant operational changes, including meaningful alterations to your usage compared to your First of Month (FOM) nominations. Symmetry is required to balance all gas receipts and deliveries during the OFO and must receive timely information from you regarding material changes in your gas usage.
