Subject: Urgent - Operational Alert - Saturday Jan 24th to Tuesday Jan 27th

Attention All Shippers on CenterPoint Texas, and Delta Utilities - Louisiana and Mississippi

Due to the forecasted colder than normal weather conditions in CenterPoint's and Delta Utilities service area, we are requesting that all shippers conform daily receipts to expected deliveries and maintain no imbalances outside of the tolerance range specified in our "General Terms and Conditions for Transportation Service". If shippers actions or inaction cause CenterPoint to incur penalties section 12.6.3 of the "General Terms and Conditions for Transportation Service" may be enforced.

12.6.3

Shipper will be responsible for its allocable share of any incremental costs associated with Company's upstream transportation, storage, or no-notice services attributable to nomination and scheduling activities of Shipper, including but not limited to incremental overrun charges, commodity charges, daily demand charges, and penalties.
