Subject : Point Specific Operational Flow Order  
Notice Text :

Gulf South Pipeline Company, LLC ("Gulf South") is issuing an Operational Flow Order ("OFO") to be effective from Gas Day Saturday, January 31, 2026 at 9:00 AM CST until Monday, February 2, 2026 at 9:00 AM CST. Additional notifications will be made pursuant to the OFO provision contained in Section 6.18[4] of Gulf South's FERC NGA Gas Tariff ("Tariff").

This OFO covers Gulf South's Locations 11869 (Basf Catalysts - Jackson MS), 20764 (Byram City Gate) and 12896 (Precoat Metals (Utility Mgmt Corp)). Shippers must ensure that physical deliveries do not exceed scheduled quantities at these locations.

Penalties associated with violations of any OFO shall be assessed 5 times the "Daily Hub Price" as defined by Gulf South's Tariff. Tolerance for actual daily over deliveries may not exceed a variance of the greater of 100 Dth or 2% of shipper's scheduled volumes. Shippers will not be penalized if Gulf South has provided them with written notice that certain transactions are operationally beneficial to Gulf South's system.

Shippers should continue to monitor Gulf South's Informational Postings Website and GasQuest Notifications for further updates unless the shipper has designated another format for notification.

If you have any questions, please contact your customer service representative.
