

---

Due to Enable Mississippi River Transmission's SPW prohibiting FSS injections under the no – notice rate schedule (attached). Effective February 15th, 2026, and continuing until April 30th, 2026; Spire Missouri would like to make sure that marketers are making a concerted effort to avoid any over-deliveries to their customers. Marketers are encouraged to ensure that deliveries are consistent with customers' anticipated usage during this time period. If supplies are overdelivered, Spire Missouri reserves the right to issue a system-wide or marketer specific operational flow order in order to maintain and protect the integrity of our distribution system

If you have any questions, please contact us immediately.

Thank you,

Peter Burke
