

## WEATHER ALERT

Due to significantly colder temperatures being forecasted beginning Wednesday, January 21, 2026, TIGT is anticipating an increase in its load activity across the system. TIGT requests that shippers match their supply nominations to the anticipated increase in on-system loads.

### Storage Restrictions and Transportation Imbalance Limitations

Effective Gas Day Tuesday, January 20, 2026, payback off the system for transportation imbalances will not be allowed. Storage Restrictions On a daily basis, shipper nominated withdrawals for Interruptible Storage Service (“ISS”), as well as shipper nominated authorized overrun (AOR) for FSS, NNS(including SCS), and CMC-2 services will not be scheduled.

### Additional Gas Supply

Additional gas supply on the system will help alleviate this situation. Recommended supply points, subject to point capacity availability, include the following:

SSC/TIGT THOMAS (Location 7448)  
TIGT/REX PHELPS (Location 60445)  
TB/TIGT ADAMS (Location 7857)  
CHEYENNE PLAINS/TIGT SCOTT (Location 41544)

### Underperformance

TIGT may issue underperformance notices for point operators not delivering the scheduled quantities they had confirmed. TIGT may reduce scheduled quantities per the tariff to match actual flows if the delivering operator does not remedy the underperformance in accordance with the notice.

Please monitor your weather forecast to assist you in matching your supply nominations to the anticipated increase in on-system loads.

Please continue to monitor the TIGT EBB for further updates. If you have any questions, please contact your Account Director or Scheduling Representative at (303)- 763-2906.
