

Quorum Pipeline Transaction Management (“QPTM”) is now operational. ID1 Cycle, Gas Day, February 26, 2026, will be scheduled as if it were Timely Cycle. Tallgrass will work with interconnecting parties and customers to reconcile previous cycles for Gas Day, February 25, 2026.

Below is the notification that was emailed due to the QPTM Outage on February 25, 2026:

Tallgrass Gas Management System Outage 11:00 AM Mountain Time

On Gas Day Wednesday, February 25, 2026, at 11:00 AM Mountain Time, Quorum Pipeline Transaction Management (“QPTM”) experienced an outage resulting in the inability to accept nominations, schedule all Tallgrass Natural Gas Assets, and confirm volumes with interconnects for Timely Cycle, Gas Day Thursday, February 26, 2026, and ID2 Cycle, Gas Day Wednesday, February 25, 2026. The system is still currently down, and Tallgrass will use the confirmed volumes of its interconnects for each cycle until QPTM is operational. There is currently no estimate as to when the system will be back online. Updates will be provided as they become available.

If you have any questions, please contact your Account Director or Scheduling Representative at 303-763-2906.
